## Endoscopic Needle Holder

MADE IN  
GERMANY

**ENDEX 6<sup>®</sup>**

Ultimate Endoscopic Needle Holder

**ENDEX 6<sup>®</sup>**

Ultimate Endoscopic Needle Holder

# SURGEON QUALITY

The **Endex 6 Endoscopic Needle Holder** offers surgeons positive feel ergonomic handle, with an integrated ratchet, providing total control and precise distal tip action every time.

A balanced spring located in the handle of the **Endex 6 Endoscopic Needle Holder** enables precision tensioning of all needle sizes and negates the possibilities of unsatisfactory needle positioning.

This ensures delivery of accurate suturing for every surgeon.

- Calculated for accurate control with EEN and SH needle styles
- Available in TC or Diamond Dusted

Diamond Dusted Jaws

TC Serrated Jaws

# TRADITIONAL DESIGN

- Well-established handle design
- Smoothly releasing ratchet mechanism
- Overload protection
- Made in Germany from 420 C Stainless Steel

# THE TRADITION CONTINUES

Appreciated features of the axial handle like automatic mechanism and smoothly releasing interlock in combination with either TC or diamond dusted jaws - a new winning team for endoscopic suturing

PROD. NO.	DESCRIPTION
